Whether new to the pool industry or a seasoned veteran, this program is ideal for **all** pool operators, including those in the hotel/motel industry, head lifeguards with responsibility for chemical testing and chlorine adjustment, and even those with Certified Pool Operator or Aquatic Facility Operator certification who need refresher training.

Our practical approach and straightforward presentation using multimedia technologies makes even complicated topics easy to understand and remember!

Using *The Complete Swimming Pool Reference* (2<sup>nd</sup> Edition) as a foundation for the course, practical tips and principles **not found in other sources** are discussed.

Our **Practical Pool Management** course provides the basic training needed by pool operators to help ensure clean, clear water for swimmers and a safe environment for all. Topics include:

- Circulation
- Filtration
- Water Balance
- Automation
- Backwashing
- Chemical Adjustments
- "Shocking"
- Risk Management
- Avoiding Suction Entrapment
- Headfirst Injuries
- Common Problems and Solutions
- Recreational Water Illnesses
- .... and more!

*"PPM was the BEST pool operator course I've EVER had!"*
